# CONSPIRACY CHOCOLATE

Born in Hong Kong in 2018, Conspiracy make small batch craft chocolate of cacao beans from a single farm in Vietnam and processing it traditionally to retain the natural health benefit and flavour complexity of high grade cacao and it's terroir, sourced directly from an expert farmer, in a close relationship & cooperation with him.

While a "chocolatier" specialises in working with chocolate, a Chocolate Maker (us) focuses on making the best chocolate possible. We focus on making a premium and sustainable bean-to-bar chocolate.

# BEAN-TO-BAR

Bean-to-bar or "craft" chocolate is a category of chocolate making which focuses on flavour development starting at the cacao tree. A bean-to-bar maker's goal is similar to that of a wine/whiskey maker; intentionally bringing out the terroir in its cleanest, most vibrant aroma and focusing on high quality with distinctive, memorable tasting notes.

# SUSTAINABILITY

Sustainability is an integral part of everything we do.

Our sustainability efforts include:

- Direct Sourcing
- Fair trade minimum: 216% of the fair trade price for cacao beans
- Working only with smallholder farms
- Zero tolerance for child and forced labour
- Organic farming practices and techniques
- Minimising carbon footprint
- Reduction of single-use plastic using only compostable packaging
- Commitment to zero food waste
- Commitment to support local community
